SUMMARY

Lead product designer with 8 years of experience in enterprise UX and B2B SaaS, across cloud platforms, logistics and banking. Brings user research, design direction and hands-on craft to complex products, helping teams turn uncertainty into experiences people can use with confidence. Experienced in leading design projects, mentoring designers, managing stakeholders and working closely with product and engineering.

EXPERIENCE

Lead Product Designer

IBM | Apr 2025 – Present

- Led design for Terraform Enterprise as a Service, bringing eight major setup stages into one guided IBM Cloud journey. Worked with product and engineering on a managed setup that reduced provisioning time from days to 1 to 2 hours in testing. The service is in development.
- Used research and prototype testing to identify issues with login details, navigation and service responsibilities. Testing with three experienced Terraform users averaged 6.1 out of 7 across five feedback questions and identified areas needing clearer guidance.
- Shaped the experience with product, engineering, architecture and service reliability teams, translating requirements around licensing, networking, security and access into IBM Cloud flows. Covered provisioning, first use, failed setup, licence updates and instance deletion.
- Used AI tools to build and refine an interactive prototype for an advanced version of Terraform Enterprise as a Service, connecting guided setup, monitoring, workspaces, access controls and policy checks. Defined task flows, access boundaries and the handoff between IBM Cloud and Terraform Enterprise before development.
- Designed the customer experience for a managed service supporting IBM Cloud's revenue growth plans, with a focus on making Terraform Enterprise easier for enterprise customers to adopt, set up and use.

UX Design Lead

Brillio | Jul 2021 – Dec 2023

- Led design initiatives for Hilton Hotels, VMware and Brillio's internal project billing portal; recognised as Brilliant of the Quarter.
- Mentored junior and senior designers, managed projects and integrated design into product strategy.
- Worked with design leadership on proposals and proofs of concept to win new client projects.

Product Designer, VMware (through Brillio)

VMware | Oct 2021 – Nov 2023

- Content Delivery Framework redesign: improved usability and accessibility of a technical documentation platform serving 500K–2M monthly users, increasing daily active users by 25%.
- Reduced search time by 50% and improved first-query success rate by 40% through search optimisation.
- Reduced translation and localisation time by 20% and cut content creators' task completion time by 30%.
- Skyline Advisor overhaul: led design for a platform used by 10,000+ customers; helped reduce critical issues by 50% and improve resolution time by 30%.
- Redesigned Log Assist, reducing log collection time by 85%.

Senior Product Designer

Cogoport | Nov 2018 – Nov 2019

- Redesigned onboarding, freight rate discovery, container booking and shipment tracking; increased adoption by 20% and supplier retention by 15%.
- Brought customer and stakeholder research into decisions across the shipment journey.
- Reduced documentation handling time by 24–48 hours with 10% cost savings; 1,500+ containers booked in the first month after launch.

UX/CX Designer

Zensar Technologies | Mar 2017 – Oct 2018

- Designed internal project and employee management applications with business, marketing and development teams; received the Q4 Quarterly Award (2018).

UX Designer, Nedbank (through Zensar)

Nedbank | Dec 2017 – Jun 2018 | Johannesburg, South Africa

- Researched, designed and tested credit card journeys across web and mobile banking.
- Increased user engagement by 20% and reduced support queries by 15%; team won the client's Best UX/UI Squad award.

UX/UI Designer (Freelance) | Doodhwala | Dec 2016 – Feb 2017

Reworked the mobile app around daily dairy and grocery purchase habits; designed branding, icon set and digital content.

UX Design Intern | Wooplr | Jun 2016 – Nov 2016

Helped the core product team build a framework for launching online fashion stores with zero inventory.

Research Intern | Toshiba | May 2015 – Jun 2015

Developed and pitched a sustainable business model for wastewater management through NID's summer programme.

Fashion and Lifestyle Accessory Designer | Arvind Lifestyle Brands, Logotech Clothing, Kariwala

Industries | May 2013 – Apr 2014

Early work in fashion and accessories before moving into digital product design.
